Subject: Footpath diversion Holmfirth 60

Re footpath diversion/access from wolf stones road.I fully support this division as does every one local who I have spoken too,delivering goods and services to Richard and Sandra over 25 years now we have struggled with access on the original path,since the new path has been in use the public have been kept away from me while I am loading and unloading,most people have a dog or children with them, the dogs appear to be better controlled on the new path and everyone loves the addition of the pond and ducks.All the objections seems to be coming from people who are not local,I have operated my farm contracting business in the Holmfirth area for over 40 years now,this path division makes so much common sense and is a valuable addition to the area.

Sincerely
David and Julie Braithwaite
