Ref Holmfirth footpath 60

Hi I've lived in Holmfirth for the last 37 years I'm a keen walker mountain biker and also work as a personal trainer for a living which has given me vast knowledge of all the local footpaths etc knowing the best ones for running walking and mountain biking as regards to the footpath running through Wolfstone Heights farm I've used it for the last 25+ years for running and walking.

The proposed new route for myself and also friends is a big improvement in comparison to the old route it has a far better path for running and walking on its smoother and wider also with fantastic views and a safe exit onto Wolfstones rd with clear views both ways for traffic .

I 100% support the new diversion its much more practical and safer than the old footpath in my view there's nothing else to be said on the matter .

Kind regards  
Andrew Taylor
