Subject: Holmfirth 60 footpath diversion application.

Dear Sirs,

I would like to support the footpath diversion (Holmfirth 60) as I believe what is proposed is very sensible and I can clearly understand why the applicant wishes to move it. The change is insignificant and in my view a better route anyway. Most of the people I meet on the route approve of the diversion and cannot understand the complaints.

I trust you will support the application.

James Richard
