Subject: footpath diversion Holmfirth 60

Hello

I am writing in support of the above mentioned footpath, having walked it this weekend and am a regular user of footpaths and bridleways in the area The new path is well surfaced and wide and provides lovely views over the valley. The addition of the benches is a nice touch and I felt more comfortable using this path as walking through the middle of someone's property feels a bit invasive and lacks the views and benches

Given the choice, I would always use the new path.

Kind regards
Richard Johnson
