Subject: footpath diversion footpath 60 upperthng

55

Dear Sir

We are writing to support the proposed diversion of the above footpath

We have lived in the area for over 35 years and been regular walkers on this very path

We have used the alternative path since it was opened which is a big improvement

Everything about it is much better and safer

Initially it was voted to change then for some reason rebuked

There has been a recent newspaper article which astounded us, it appears there could be some

Political motive against the change

We trust our comments with allow this to be looked at again with the view to this diversion being allowed

Yours Faithfully

David & Pauline Iredale
