Subject: Wolfstones Heights Farm. Ref-NATTRAN/Y&H/S247/4337

Dear Sir or Madam,

I walk along the section of diverted footpath daily and at no inconvenience to myself. It is beautifully landscaped and where it meets Wolfstones Road is safe to exit to continue towards Upperthong.
The original footpath, where it meets Wolfstones Road, is on a tight bend and traffic from Upperthong via Wickins Lane onto Wolfstones Road drive in excess of the 30mph speed limit, therefore making it a dangerous exit onto Wolfstones Road. The danger is exacerbated by the newly surfaced road permitting speeding cars to travel almost silently uphill and around the corner.
I fully support the proposed footpath diversion.

Kind regards,

Catherine Fleming
