Subject: Footpath diversion Holmfirth 60, Wolfstones Road, Uppershong

Dear Sirs

I wish to write and add my support for the footpath diversion. I regularly visit friends in the area and we often walk the route with our young families. The new route has been planned well and navigates the view perfectly, the benches are in a fantastic location and they provide unrivalled views over the whole of Huddersfield and beyond.

When approaching the exit of the new path the view of approaching traffic is drastically improved and it makes for a much safer transition to the road.

I feel that I should offer my support as the new footpath is a great improvement over the previous route through the gardens and driveway of the houses.

Kind regards

Alastair C. Birtles
