Subject: footpath diversion Holmfirth #60

Dear Sir/Madam

I would like to register my support for the revised footpath layout at Wolfstone in Holmfirth.

I regularly run the route with my ex military friends. The new and improved layout is extremely beautiful and kinder on 'old knee's!' The provision of seating is an extremely thoughtful touch and one for which said knee's are increasingly grateful. Certainly during winter when the wet and icy conditions cause the tarmac incline to be difficult and at times, dangerous.

Personally I often feel that the run immediately past the farm gate is an invasion of privacy, despite the gentleman owner being friendly and courteous.

Please consider my support in favour of the new, scenic route.

Nigel Woods
